

## COUNCIL MEETING – WEDNESDAY 12 JULY 2017

### NOTICE OF MOTION

This Council recognises that, whilst it is Merton Clinical Commissioning Group (CCG) that commissions support for people with neurological conditions, including Motor Neurone Disease (MND), many decisions about services used by residents with MND, such as social care, housing adaptations and support for carers, are made here at local authority level.

This Council therefore resolves to adopt the Motor Neurone Disease (MND) Charter, which sets out the care and support that people living with MND and their carers deserve and should expect.

In adopting the MND Charter, this Council agrees to promote the Charter within the borough and to make it available to all councillors, council staff, partner organisations and health and social care professionals who deliver services for the council. This will serve to raise awareness of MND and demonstrate what good care looks like for those living with this devastating disease. It will also assist the council, working closely with Merton CCG, positively to influence the quality of life for local people with MND and their carers living in our community.

**Cllr Suzanne Grocott**

**Cllr Daniel Holden**

**Cllr Oonagh Moulton**
