1 PURPOSE OF REPORT AND EXECUTIVE SUMMARY

- 1.1. This Panel commissioned a task group to consider Air Quality in Merton. Poor air quality is the largest environmental risk to public health, particularly amongst vulnerable groups such as the elderly, young children and those with existing respiratory conditions. Air pollution is the most significant factor impacting on public health after smoking.
- 1.2. This review focussed on the Merton Air Quality Action Plan and measures to improve air quality at construction sites, which has a significant impact across the borough. The full report is attached at Appendix A.

2 ALTERNATIVE OPTIONS

The Sustainable Communities Overview and Scrutiny Panel can select topics for scrutiny review and for other scrutiny work as it sees fit, taking into account views and suggestions from officers, partner organisations and the public.

Cabinet is constitutionally required to receive, consider and respond to scrutiny recommendations within two months of receiving them at a meeting.

- 2.1. Cabinet is not, however, required to agree and implement recommendations from Overview and Scrutiny. Cabinet could agree to implement some, or none, of the recommendations made in the scrutiny review final report.
