**Subject:** Time in Ro (Morden)

Hello,

I am a resident of Morden and I have just read an article about a restaurant Time in Ro which submitted an application to serve alcohol until 5am and also play music and have dancing, etc. (<http://www.yourlocalguardian.co.uk/news/16391475.morden-restaurant-is-looking-to-serve-alcohol-until-5am-on-weekends-for-traditional-parties>)

I would ask, please, under no circumstances allow this application to go through. Morden is a community to which people are relocating for a primary reason that is safe. It has improved over the years, with nice shop fronts, Luna outdoor cinema, Morden Hall park which has been looked after, some new cafes... However if we allow more drinking, especially late at night, all it will spark is antisocial behaviour that we've been trying to get rid of for so long in Morden. Instead more middle to upper range cafes should open up, which would pride itself for food and service, rather than for alcohol it serves. If we want to improve our community, we need to ensure that our council remains one of the safest among London and we need to ensure that people middle and upper level find their demands met in Morden and move to the area, making it more vibrant and attractive.

Thank you

Victor Fedianine
