Subject: WK/201806990 - Objection to licensing change

Dear sir,

I note the above application. I would like to raise my strong objection to this application to extend the licensing hours for this premises. I live around the corner from this location and am already concerned by the impact the place has on the local area. I frequently have to dodge pools of vomit in the street, endure urine against walls and take-away boxes being thrown into my front garden, and loud and abusive language in the early hours on the morning etc. As this premise is, as I understand it, the only place with a late licence nearby it is not unreasonable to attribute this to the venue in question. Recently we've also suffered vandalism on our street, including our gate post being kicked over.

Rather than extending the licence for this venue I would ask that the Council pro-actively review the premises and consider reducing the licensing times, in particular Sunday evenings.

Please let me know the outcome of this application.

Kind regards

David Waterfield
