ENV1819-05	Highways advertising income through re-procurement of the advertising contract for the public highway. New contract due to be in place by last quarter of 2019/20.	55	10	45	R	0	55	R	James McGinlay	Covid-19 estimated to impact on saving, due to JC Decaux requesting to remove Q2 guaranteed income payment due to LBM. E1	Investigate potential commercial opportunities to generate income from provision of business advice. This follows on from the expansion of the RSP to include Wandsworth from November 2017, and increased resilience.	60	0	60	R	0	60	R	Cathryn James	This saving is conditional on income being generated from chargeable business advice/consultancy. The focus for the financial year 2019/20 needed to refocus from income generation to service improvement including a major IT project and restructure of the service. Key projects and staff vacancies has meant it has not been possible to achieve the savings targets set for this financial year.	Y
ENR4	Charge local business' for monitoring of their CCTV	100	0	100	R				Cathryn James	Alternative saving has been agreed for 2020/21.	N
ENV1819-03	The objective of the proposal is to support the delivery of key strategic council priorities including public health, air quality and sustainable transportation, in addition to managing parking, kerbside demand and congestion. Whilst implementation of the proposals will have the incidental effect of generating additional revenue, it is difficult to assess the level of change in customer behaviour and any subsequent financial impact arising from the changes. This will be monitored after implementation and any resulting impacts will be considered during the future years' budget planning cycles. The above will be subject to the outcome of the consultation process in 2019.	1,900	662	1,238	R	0	1900	R	Cathryn James	The new charges were implemented on 14th January 2020. Early analysis shows a reduction in sales of Permits, including scratch cards, and a greater number of 6 month permits being sold than 12 month permits against historic trends, which is even more evident in the case of diesel cars Permits. Unfortunately Covid 19 began only approximately 2 months after the introduction of the new charges, resulting in a significant change in Permit sales, which has made projections very difficult. Permit sales in Sept and October 2020 are now on par with previous years and will continue to be monitored on a monthly basis particular in light of Lockdown 2 (Nov 2020). Lockdown 3 has been announced with further unknown consequences, however Lockdown 2 did not show a significant change in activity. 12 month equivalent Permit sales for the year are estimated to be down by approx. 10% overall for the calendar year 2020. Following the introduction of On Street charges, data showed expected income was being achieved, but off street showed a slight under recovery on estimated. Unfortunately, Covid 19 began only approximately 2 months after the introduction of the new charges	Y

CH89	Older People Day Care Activities:- As less people are choosing to attend these formal day centre we currently having increasingly vacancies within these provisions which are not been utilised. The proposal seeks to assess and analyse the demand and supply of activity aimed at supporting older people to access community activity. This will objectively look at the supply of building based and non-building based activity, its utilisation and the limitations on providing what people expect and need within the current model. It is envisaged that this will include a rationalisation and reduction of the current level of building based 'day centre' activity. This is based on current demand statistics and will include consideration of the effect of 2018/19 reductions in contracted day centre services; which is covered in a separate EIA for that specific proposal.	236	118	118	R	236	0	G	Richard Ellis	Engagement with the new owner has established an agreed timeline that means that the majority of savings will not be achieved until the new year.
