

WASTE STORAGE

Waste Storage

There are 3 existing bin stores, with space for 10no. 1100L bins. This is slightly under Merton's current waste storage standards which is 240L per unit.

The proposed scheme will add an additional 16 units, taking the total up to 64 units, which would require 7x1100L refuse bins and 7x recycling bins. A new bin store is proposed to accommodate the extra 4 bins. It would match the design of the existing stores and bring the provision up to the requirements for all 64 units.

Number of Units	Refuse (120L per Unit)		Recycling (120L per Unit)		Total
	Capacity Required (L)	No of 1100L Euro Bins	Capacity Required (L)	No of 1100L Euro Bins	
64	7680	7	7680	7	14

Existing Bin Stores - Capacity for 2no. 1100L bins
