Summary key messages

Mortality in care homes and at home

- There have been 502 deaths across Merton care homes since 29th Feb 2020
  - This comprises 53 COVID-19 deaths and 449 non-COVID-19 deaths*

- Merton care homes have had fewer COVID-19 deaths compared to other SWL boroughs in most months of the pandemic so far

- The number of deaths in care homes in Merton peaked in April 2020 and January 2021

COVID-19 vaccination

- Uptake of dose 1, 2, and the booster dose among older and younger adult care home residents is steadily increasing

- Among older adult care home residents, Merton is middle ranking (3 out of 6) compared to SWL boroughs but slightly higher compared to London for all three doses

- Among older adult care home staff in Merton, dose 1 and 2 uptake is comparable to SWL boroughs and London but booster dose uptake is slightly higher than London

*COVID-19 deaths are defined as deaths where COVID-19 was mentioned on the death certificate.
SWL boroughs: Croydon, Kingston, Merton, Richmond, Sutton, and Wandsworth

All cause mortality in care home settings in SWL boroughs

Source: ONS death registrations and occurrences by local authority and health board licensed under the Open Government Licence (https://www.ons.gov.uk/peoplepopulationandcommunity/healthandsocialcare/causesofdeath/datasets/deathregistrationsandoccurrencesbylocalauthorityandhealthboard)

Key messages

Please note: in order to fairly compare deaths across the boroughs, we estimated mortality rate per 100,000 population using an estimate of the 65+ year old population for each SWL borough from before the pandemic (2019 estimates**). However this doesn't account for differences in population health, age distribution, and the number of people in a care home between boroughs.

Merton care homes have had a similar number of deaths per 100,000 population compared to other SWL boroughs

Merton has had the fewest deaths in care home settings over the pandemic so far compared to other SWL boroughs

Borough	Croydon	Kingston	Merton	Richmond	Sutton	Wandsworth
Total number of registered deaths in care home settings since 29th Feb 2020***	995	527	502	517	677	610
Total mortality per 100,000** in care home settings since 29th Feb 2020***	1,854	2,123	1,911	1,658	2,131	1,950

*please note the two waves and "Omicron period" are based on definitions produced by the ONS.

**The estimated number of 65+ year olds in each borough, published by the GLA (https://data.london.gov.uk/dataset/gla-population-projections-custom-age-tables)

***The presented data represents deaths registered between week ending 6th March 2020 and 4th Feb 2022

Data as of 21st Feb 2022
